

1. Log in to Windows as an Administrator user.
2. Download Oracle Database software:
<https://www.oracle.com/database/technologies/oracle19c-windows-downloads.html>
3. Extract the zip file contents to a desired destination directory.
4. Navigate to the location for Oracle Database 19c, run the `setup.exe`

☒ **Desktop class**

Choose this option if you are installing on a laptop or desktop class system. This option includes a starter database and allows minimal configuration.

☐ **Server class**

Choose this option if you are installing on a server class system, which Oracle defines as a system used in a production data center. This option allows for more advanced configuration options.

For enhanced security, you may choose to run Windows Services from this Oracle home with a non-administrator account. Oracle recommends that you choose a Virtual Account or specify a standard Windows User Account for this purpose.

☐ Use Virtual Account☐ Use Existing Windows User

User Name:

Password:

☐ Create New Windows User

User Name:

Password:

Confirm Password:

The newly created user is denied Windows logon privileges.

  **Use Windows Built-in Account**
